

# access & inspection platform

Cox & Plant have designed a robust Access and Inspection Platform designed for use in all food environments. This Access and Inspection Platform incorporates stairs, a unique food hygiene panel system, drains and handrails of all continuously welded construction.

The Access and Inspection Platform facilitates rigorous examination of all food products, ensuring that no foreign matter can fall from the platform into any part of the food processing line.

## **Application**

**Ideal for quality control and inspection programmes.**

**Useful for supervisory management**

## **DESIGN**

- Easy maintenance
- Cleaning and hygiene - safer than balancing on a ladder

## **OPTIONS**

We offer installation flexibility with options to suspend overhead and install at variable heights.

Installation can be provided from ground floor or mezzanine area, as required.

The Access Platform can have the option of being mobile with lockable castors.

Stairs are manufactured as a full set, or a cat ladder, depending upon space and budget constraints

## **TECHNICAL SPECIFICATION**

The Cox & Plant Access and Inspection Platform is manufactured from RHS stainless steel and supplied with a bead blast finish, facilitating lifetime free maintenance.

A non slip surface is built using 4.5mm Durbar™ plate with 6mm overthead.
