

vibratory chipveyor™ conveyor

- The Chipveyor™ is Cox & Plant's advanced Chip Grading Conveyor which can transport chips and potato products of all shapes and sizes, to a maximum throughput of 30 tonnes per hour.
- Already used by the UK's leading chip processors, The Chipveyor™ is industry proven and built to last.
- The Chipveyor™ is designed to process any size or shape of potato chip (French fries).
- The Chipveyor™ will also select the required size of potato product.
- The Chipveyor™ is easily adjustable for grade changes.

Application

**Chips, French fries, Straight or crinkle cut, Peeled, Coated, Southern Fried, Whole, chopped or sliced Noisettes, Roast potatoes, Croquettes, Nuggets
And other fresh, chilled and frozen potato products**

DESIGN

- The Cox & Plant Chip Grading Conveyor incorporates the QuickRelease Clamps™ to minimise downtime.
- The Cox & Plant Chip Grading Conveyor provides maximum flexibility and can be used for different size products or even different types of products.
- The Chipveyor™ gently handles coated chip products.
- The Chipveyor™ is fully adjustable for grade and diameter changes.
- The Chipveyor™ can be placed on mezzanine floors, which benefit from the use of natural gravity for efficient product flow.
- The Chipveyor™ can also de-water and calibrate products.

OPTIONS

The Cox & Plant Chip Grading Conveyor can be fitted with interchangeable screens.

The ability to segregate products into different grades.

Automatic or manually operated gates can be provided.

Product diverters can be incorporated into The Chipveyor's™ design.

The Chipveyor™ can be designed with flared in-feed and bias discharge design.

TECHNICAL SPECIFICATION

The Chipveyor™ is manufactured from all stainless steel and supplied with a bead blast finish, facilitating lifetime free maintenance.

Supports can be provided in stainless steel.
