

vibroveyor™

The Vibroveyor™ is designed as a robust, balanced, lightweight workhorse that absorbs over 99% of transmitted vibration. It is probably the Quietest machine with a DBA reading below 58 dbA (without product) in the industry. The Vibroveyor™ can be floor mounted, on a mezzanine floor, suspended By stainless steel ropes or even on stainless steel castors.

- The Cox and Plant range of conveyors are renowned for probably the industries lowest maintenance costs and longevity.
- We meet and exceed all EU and BSI standards.
- Our DTI award winning CP 2000™ electro magnetic range of conveyors are years ahead of our competitors with the EMC regulations

Application

Any product that utilises a conveying concept.

DESIGN

- A solid design that should offer a 25-year working life cycle.
- Electro-magnetic or mechanical drives available depending on the product and task required.
